

## Part Specification - Supplier Specific

### 1 Component Name

SHOCK ABSORBER

### 2 Part Number

GE Part Number	Supplier Name	Supplier Catalog Number
445W3358P001	Weforma	WE-M 0,25 AP2
445W3358P002	Weforma	S21053

### 3 Part Description:

445W3358P001 Shock Absorber Adjustable

445W3358P002 Rectangular Flange for Shock Absorber P001 installation

### 4 Change List

Rev.	Date Created (y/m/d)/ Author <sup>1</sup>	Affected Pages	Change
A	2017-12-28/ 204050462	All	Updated supplier catalogue number for 445W3358P001. Per ECR3038814

### 5 Product Requirements

#### 5.1 Documentation

GE Technical Spec:

Customer Request Avoid slamming of door to toe plate

### 6 Compliance

CE	No	
IEC	No	
UL	No	
CSA	No	
CCC	No	
Residual Risk Summary required	Yes	EN ISO 12100

<sup>1</sup> For additional approvers, see PLM.

- **CE Part Requirement** – Suppliers shall provide Declaration of Conformity or Declaration of Incorporation or Declaration of Performance, depending on what directives apply or provide GE approved justification for not declaring their product.
- **IEC Part Requirement** – Suppliers will provide a technical summary on how compliance to the specific IEC standard was achieved. This is utilized only when CE marking requirements fall outside of the scope of the specified component, but is required by the European Union or specific GE application
- **UL and/or CSA Part Requirement** – Suppliers will provide the Listing file number
- **CCC Part Requirement** – Suppliers will provide the CCC Certificate number or prove exclusion
- **Residual Risk Summaries** – When requested, Suppliers will provide all Residual Risks associated with the component per the guidelines of EN ISO 12100
